EDUCATION

National Institute of Technology, Agartala Bachelor of Science (B.S.) in Mathematics and Computing	2023 – 2027 CGPA: 8.5
Saint Soldier Public School, Jaipur Senior Secondary (XII)	2021 – 2022 Percentage: 90.8
Saint Soldier Public School, Jaipur Secondary (X)	2019 – 2020 Percentage: 92.60

SKILLS

- **Languages:** Python, C, SQL
- **Generative AI / LLMs:** Large Language Models (OpenAI GPT, Google Gemini, Anthropic Claude, Meta LLaMA 3.3 70B via Groq), Prompt Engineering, QLoRA Fine-Tuning, Multimodal AI, Ollama
- **Agentic AI and Orchestration:** Agentic Workflows, Multi-Agent Systems, Agent Tool Calling, LangChain, LangGraph, OpenAI Agents SDK, CrewAI, AutoGen
- **Retrieval Augmented Generation (RAG) and Vector Databases:** RAG Pipelines, ChromaDB, Vector Embeddings, Sentence Transformers, Semantic Search, Hugging Face Transformers
- **Machine Learning / Deep Learning / NLP:** TensorFlow, Keras, Scikit-learn, NumPy, Pandas, BERT, Transformers, Whisper (ASR)
- **Backend / APIs / Tools:** REST APIs, OAuth 2.0, Gradio, Streamlit, Git, OOP, Data Structures & Algorithms (Trees, Graphs, Dynamic Programming — 150+ LeetCode)
- **Data:** SQL, CSV, JSON, Matplotlib, Seaborn
- **Mathematical Foundations:** Linear Algebra, Probability & Statistics, Calculus, Graph Theory, Data Mining & Warehousing, Linear Programming, Game Theory

PROJECTS

AI Portfolio Chatbot (Live: <https://www.huggingface.co/spaces/parmeshlata> | Meta LLaMA 3.3 70B (Groq API) | ChromaDB | RAG | Agentic Tool Calling | Gradio)

- Deployed a live, recruiter-facing RAG chatbot on my portfolio site, architecting a modular agentic pipeline with 2 custom tools (recruiter data collection, real-time Pushover notifications), semantic chunking, and embedding-based retrieval, answering multi-turn queries in under 3 seconds.
- Reduced LLM response cost and improved reliability, as measured by resolving recurring API failures and rate-limit errors, by migrating the production backend from Gemini 2.5 Flash to LLaMA 3.3 70B on Groq and implementing dedicated error-recovery handling.
- Enabled real-time recruiter engagement tracking by integrating a Pushover notification tool that delivers automated hiring-intent alerts within 1 second, with rate-limit handling and API failure recovery.
- Eliminated duplicate and inconsistent retrieval results by debugging duplicate vector indexing and resolving Hugging Face Spaces configuration issues, improving production search consistency.

Gmail RAG System (Python | Gradio | Gmail API | OAuth 2.0 | ChromaDB | Hugging Face Transformers | Gemini/OpenAI API)

- Engineered a 4-stage end-to-end RAG pipeline — OAuth 2.0 authentication, email ingestion, chunking, and embedding generation — with ChromaDB vector indexing to enable semantic retrieval across 300+ indexed emails.
- Integrated Gemini as a conversational reasoning layer over indexed embeddings, delivering natural-language answers to free-form queries in under 2 seconds.
- Built a Gradio interface with persistent chat history and inline source citations on 100% of responses, ensuring full traceability back to the source email.
- Independently designed, built, and shipped all 4 pipeline layers — auth, ingestion, embeddings, orchestration — as a solo, end-to-end build on real personal data.

POSITIONS OF RESPONSIBILITY

President (Data Science and Artificial Intelligence Club, NIT Agartala | Apr 2025 – Apr 2026)

- Scaled the institute's first dedicated data science/AI club from 20 to 100+ members over two years; planned and conducted 16+ workshops in 8 months, including sessions on agentic AI and generative AI systems.
- Oversaw 5 predictive modelling and data visualization projects, mentoring members on feature engineering and model evaluation while guiding hackathon and AI research participation.

Vice President and Design Lead (Data Science and Artificial Intelligence Club, NIT Agartala | Apr 2024 – Apr 2025)

- Directed design and branding for club events and workshops, producing promotional and educational material supporting membership growth.

Internship Coordinator (NIT Agartala | Apr 2025 – June 2026)

- Coordinated internship-related communication between students, recruiters, and stakeholders throughout the recruitment process.

CERTIFICATES

- AI Engineer Core Track: LLM Engineering, RAG, QLoRa, Agents (Instructor Ligyency, Ed Donner (UC-d3ba906c6-225e-437d-bcda-d001b2c18276)
- Complete Data Science, Machine Learning, DL, NLP Bootcamp (Instructor Krish Naik, KrishAI Technologies Private Limited) (UC-1f373260-3dab-4a47-99c5-cc30ffcc8bc)
